COMMENTS:

Officers handled a small rash of graffiti being spray painted on buildings. One juvenile has been identified and we are in the process of identifying others. We take this very serious, since graffiti is like a virus and it can spread rapidly.

The draft lease agreement for an office at the Fire Department was received today 10/30/09, it will be reviewed at committee level next week. Most of it is boiler plate language that was submitted by their attorney.

I am requesting your approval and support for a 2% grant. The grant request is for a new patrol vehicle. I have attached a copy for your review. If you have any questions please call me.

I apologize for the late staff report this week

Respectfully submitted

**Del Moore
Chief of Police**
